But it must be clearly understood that the Government of Pakistan reserve to themselves an absolute discretion to reject as unfit any candidate whom they may consider on the report of the Medical Board to be physically disqualified for the service and that their discretion is in no respect limited by these regulations. Save as provided in Regulation 2, these regulations are intended merely for the guidance of Medical Examiners and are not meant to restrict their discretion in any way.

1. To be passed as fit for appointment a candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of his appointment.

2. A minimum chest measurement of 33 inches (girth when fully expended with a minimum expansion of inches) is required. In the matter of co-relation of age, height and chest girth of candidates, it is left to the Medical Board to use whatever co-relation figures are considered most suitable as guide in the examination of the candidates.

3. The candidate's height will be measured as follows:-

He will remove his shoes and be placed against the standard with his feet together and the weight throws on the heels and not on the toes or outer sides of the feet. He will stand erect without rigidly and with the heels calves, buttock and shoulders touching the standard, the chin will be depressed to bring the vertex of the heel level under the horizontal bar, and the height will be recorded in inches and parts of an inch to quarters. Candidate whose height is less than 5 ft will not be considered physically fit for appointment.

4. The candidate's chest will be measured as follows:-

He will be made to stand erect with his feet together and to raise his arms over his head. The tape will be so adjusted around the chest that its upper edge touches the interior angles of the shoulder blades behind and its lower edge the upper part of the nipples in front. The arms will then be lowered to hang loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidates will then be directed to take a deep inspiration several times and the maximum expansion of the chest will be carefully noted, and the minimum and maximum will then be recorded in inches, 33-35, 34-36 ½, etc. In accordance with the measurements, fractions of less than ½ inch should not be noted.

5. The candidate will also be weighed and his weight recorded in pounds. Fractions of a pound should not be recorded.

6. The candidate's eye sight will be tested in accordance with the following rules. The result of each test will be recorded:-

(i) General – The candidate's eyes will be submitted to a general examination directed to the detection of any disease or abnormality. The candidate will be rejected if he suffers from any squint or morbid conditions of eyes, eye-lids or contiguous structures of such a sort as to render, or to be likely at a future date, to render him unfit for service.

(ii) Visual Acuity – (a) The examination for determining the acuteness of vision includes two tests, one for distant, the other for near vision. Each eye will be examined separately. Snellen's test types will be used for the test for distant vision without glasses at a distance of 20 feet, and for the test for near vision, without glasses, at any distance selected by the candidate.

b) No candidate will be accepted whose Visual Acuity falls below the following standards:-

	Better eye	Worse eye
Distant vision without glass .. .. .	6/12	6/18
Corrected with glass .. .. .	6/6	6/9
Near vision with or without glasses .. .. .	0.6	0.6

(iii) Colour perception, night blindness and field vision (a) Each eye will be examined separately and the lids must be kept wide open during the test.

(b) Inability to distinguish the principal colours will not be regarded as a cause for rejection but the fact will be noted in the proceedings and the candidates will be informed.

(c) Each eye must have a full field of vision as tested by hand movements.

(iv) The degree of acuteness of vision of all candidates for appointment will be entered in the proceedings in the following manner:-

V.R.....with glasses.....Reads.....

V.L.....with glasses.....Reads.....

(v) In cases of serious abnormality the opinion of an ophthalmic specialist should be obtained.

Note: - No candidate will be accepted for appointment if his vision does not come/up to the requirements specified above without the use of contact glasses. (A correct glass or lens is defined as a glass of concavity of which is in contact with the globe of the eye, a layer the liquid being intervosed between the lens and the cornea. The meaning of the word "glasses" whenever used above is to be interpreted as not covering contact glass).

7. The urine (passed in the presence of the examiner) should be examined and the result recorded.

8. The following additional points should be observed:-

- (a) that the candidates hearing in each ear is good and that there is no sign of disease of the ear.
- (b) that his speech is without impediment,
- (c) that his teeth are in good order and that he is provided with denture where necessary for effective mastication (well filled teeth will be considered as sound).
- (d) that his chest is well formed and his chest expansion sufficient and that his heart and lungs are sound.
- (e) that there is no evidence of any abdominal disease,
- (f) that he is not ruptured.
- (g) that he does not suffer from hydrocele, a severe degree of varicocelo, various vetine or piles,
- (h) that his limbs, hands and feet are well formed and developed and that there is free and perfect motion of all his joints.
- (i) that he does not suffer from any invertebrate skin disease,
- (j) that there is not congenital malformation or defect,
- (k) that he does not bear traces of acute or chronic disease pointing to an impaired constitution.
- (l) that he bears marks of efficient vaccination, and
- (m) that he is free from communicable disease.

9. When any defect is found it must be noted in the certificate and the medical examiner should state his opinion whether or not it is likely to interfere with the efficient performance of the duties with which will be required of the candidates. If the condition is remediable by operation it should be so stated.

Note: Candidates are warned that there is no right of appeal from a medical Board, special or standing, appointed to determine their fitness for the above services. If, however, Government is satisfied on the evidence produced to them of the possibility of an error of judgement in the decision of the first Board, it is open to Government to allow an appeal to a second Board
